

<b>NAME OF ROLE</b>	<b>COORDINATOR OF EXTERNAL RELATIONSHIPS</b>
---------------------	--

<b>DESCRIPTION</b>	<p>Anesvad is a Foundation committed to making the Human Right to Health a reality, acting for the most part within the field of international cooperation, and more specifically in the fight against Neglected Tropical Diseases (NTDs), especially skin diseases, that threaten the lives of millions of people in sub-Saharan Africa. These diseases have a serious impact on the living conditions of the most vulnerable populations of the continent. In accordance with the aims being pursued at an international level, we work in collaboration with the Ministries of Health of endemic countries and strategic players (including stakeholders such as the WHO, civil-society organizations, international NGOs, scientific institutes and universities, scientific societies) in order to wipe out these diseases and restore the health of the most vulnerable and neglected people, while also strengthening the capabilities of the healthcare systems of countries such as Benin, Togo, Ghana, or Ivory Coast.</p> <p>At Anesvad we combat NTDs on the basis of a human-rights approach, in conjunction with the Health Primary Care (HPC) strategy, also taking into account gender, disability, inter-culturalism, and the environment as some of our cross-cutting perspectives.</p> <p><b>For this reason, Anesvad is opening a new position to define and lead the Foundation in establishing relationships and partnerships to fight NTD. We are looking for professionals interested in seeking out and collaborating with other actors committed to making a lasting impact in the field of NTD. This is a flexible position where you will have the opportunity to put ideas into practice, and requires initiative and skills of diplomacy, intercultural awareness and critical-thinking skills.</b></p> <p>We are therefore looking to fill the permanent role of coordinator of external relationships (bilateral agreements) through a selection process for our Anesvad Foundation.</p>
--------------------	--

---
